Fwd: Decision on NMED-LL16198D

Mike-

Here's the acceptance letter you'd requested.

Steve

> Dear Dr. Goldman,
> T. am delighted to tall you that your
```

>I am delighted to tell you that your manuscript (NMED-LL16198D) has >been accepted for publication in Nature Medicine. Prior to setting >your manuscript, we may make minor changes to enhance the lucidity >of the text, and if necessary to make it conform to the journal?s >style. We therefore ask that you examine the proofs most carefully >to ensure that we have not inadvertently altered the sense of your >text in any way.

>Acceptance is conditional on the manuscript?s not being published >elsewhere, and on there being no announcement of this work to the >newspapers, magazines, radio or television before the publication >date. Nature Medicine, however, does allow the registered >journalists who receive our press release to have copies of papers a >week before publication under strict embargo conditions, solely for >the purpose of publicizing the work in the media. We permit these >journalists to show papers to independent specialists a few days in >advance of publication, again under embargo conditions, solely for >the purpose of commenting on the work described. These restrictions >are not intended to deter you from presenting your data at academic >meetings and conferences, but any inquiries from the media about the >papers not yet scheduled for publication should be referred to us.

>About ten days before the paper is published, we shall be >distributing a press release to news organizations worldwide, which >may very well include details of your work. We are more than happy >for your institution or funding agency to prepare its own press >release, but it must mention the embargo date and Nature Medicine. >Please contact us for more details.

>An order form for reprints will be sent along with the proofs. >Please note that in most cases, we can only confirm the issue of >publication a few weeks before we go to press.

>I am pleased to say that Nature Publishing Group now allows authors >to retain copyright to their own papers rather than assigning it to >the publisher. We do, however, still need your formal written >permission before we can publish your work. Therefore, if you have >not already done so, please complete and sign the attached license >transfer form, and fax it to us at 212-683-5751.

```
> 'Sincerely,
